

PREDICTABILITY + PEACE OF MIND

Need guaranteed rock drill maintenance and repair costs and the peace of mind that your rock drill operates at peak performance? Count on us. Our trained technicians know your rock drill inside and out, and will manage maintenance to maximize your performance and unlock your full drilling potential, 365 days a year.

PRICE PER HOUR

Our price-per-hour business model delivers you year-round peace of mind and cost stability while minimizing your risks. It's suitable for all rock drill models and available on extendable fixed-period agreements. You pay a set price per percussion hour each month, and we take care of the rest. Drill with the confidence that only our genuine OEM parts can provide. Enjoy extended service intervals and reduced risk of expensive, untimely breakdowns.

Our price-per-hour business model is available for rock drills you own or in combination with a Sandvik lease option, which enables you to harness the latest technology at an attractive price. Either way, you'll rest assured that your rock drill performs reliably and at optimum efficiency. You'll also reap the benefits of all product enhancements during your drill's operating life.

Our price-per-hour business model includes extended service intervals and warranties on some rock drill models. As your partner of choice, we'll also provide a spare rock drill at your site for instant exchange to eliminate downtime if your rock drill requires repair off-site.

Price-per-hour model excludes everyday costs while fitted to a drill, such as seals, diaphragms, gas, bolts, etc.

If not sold in conjunction with a performance upgrade, we'll perform an initial audit to inspect rock drill condition.
